

## **Crypto-Magique Inc. -**

### **Crypto-Magique Inc. - Custom Build Software**

- Design, Research, Engineering & Advanced Manufacturing

#### **Industry:**

- Aersopace : Aero-Magic
- Marine
- Automobile
- Machine & mecatronics
- Defence Technology

#### **Design Elements :**

- Structural - materials, design, analysis & optimisation
- Advanced Energy & Propulsion
- Combustion Thermo-physics
- Materials & Technology Applications
- Surface Engineering

#### **Super Computing :**

- Multi-physics design engineering applications
- mesh grid generation and topography rendering
- CFD - computational fluid dynamics,
- FEA - finite element analysis
- CAD/CAM - computer assisted design & manufacturing

#### **Financial & Economic :**

- Capital Structure & Securities, Business Combinations
- Banking, Economic Trade & Transaction Systems
- Money Creation, Currency & Treasury Reserve Management
- Natural Resource & Enterprise Production Reserves & Capacity

#### **Enterprise & Community:**

- Enterprise Network - Made in Canada goods & services
- Secure multi-media communication & correspondence
- Secure Enterprise & Distribution - supply chain logistics
- SEDI - Individual, co-operative, association & enterprise

#### **National Security :**

- Peace and War Vector Scenarios, Mission Tasking
- Defence Vehicle, Technology, Integrated Weapons & Logistics
- National and Civil Defence Logistics - C5 Integrated
- Intel, Signal Processing, pro-active & counter measures

#### **Individual, Enterprise & Entity :**

- Intellectual Property Management :
- classified, official - unofficial secrets, suppressed technology
- Character Building, personal and professional development
- Personnel Asset Optimisation : students trade, technology, association, prodigy, old school workforce

#### **CMI-Programs :**
