### **Computers and software is related to geo-politics and warfare,**

*Of course you may not know how extremely vulnerable modern computers and software are.*

**the enemy is against personal freedom, privacy, wealth and nation state sovereignty.**

*You don't really need spy, crime, fraud, genocide, treason and war against you, do you?*

### **Integrity in computers and code, government and people, enterprise and communications.**

*You need solid confidence, reliability, speed, integrity and the real open source, right?*

*Oh Canada, where intelligent patriotism, economic nationalism, creative imagination, brilliant technical genius and hard work of the individual stands on guard for thee, we stand on guard for thee, O Canada...with Crypto-Magique Inc.*
